The Sandra and Glenn D. Cunningham Foundation

Our Mission

The Sandra and Glenn D. Cunningham Foundation (SGCF) is a not-for-profit organization created to positively impact the growth and advancement of Jersey City, New Jersey, by offering needed educational and training opportunities to the community.

The focus of SGCF is to enhance the lives of highly motivated high school graduates that face challenging circumstances which may hinder their access to educational resources. The Foundation provides financial assistance and a one-on-one mentor relationship with positive role models to guide them in reaching their educational goals.

Our History

The Sandra and Glenn D. Cunningham Foundation is located in Jersey City. The second largest city in New Jersey and one of the most culturally diverse in the nation.

The late Glenn D. Cunningham a former US Marine, Jersey City Police Officer, Jersey City Councilman and Hudson County Freeholder and his wife Sandra Bolden Cunningham founded the organization shortly after Glenn D. Cunningham was elected as the first African-American Mayor of Jersey City. Later, he served as a New Jersey State Senator.

Our Track Record

In June of 2011, we awarded scholarship grants to 14 students from Jersey City and Bayonne. Each student received an award of \$1,500 and a caring and committed mentor. Mentoring programs have proven to be an exceptional method to aid in the success of college students by providing a solid support mechanism.

Our Students

Our Goals for 2012

- ❖ Expand our services by providing more scholarships to students from Jersey City and Bayonne, New Jersey.
- ❖ Re-grant all of our current 14 students.
- ❖ Grant 20 new high school graduates scholarships for their first year of college.
- ❖ Work with businesses to place students in summer internships in their fields.
- ❖ Grant scholarships to offset the cost of internship housing.
- ❖ Match every student with a mentor.
- ❖ Host workshops for mentors and students on resume building, interview preparation and workforce preparedness.

Why Our Organization is Important

The Foundation was created with the belief that education and public service are the backbone of the community. Assisting young people furthering their education, fosters success that strengthens families, and communities now and in the future.

Please help us today by investing in our future by contributing to this foundation.
